

Guía práctica de la base de datos

SpringerLink es una de las principales fuentes multidisciplinarias de recursos utilizadas por investigadores, profesores y estudiantes, que proporciona el acceso a miles de documentos de revistas académicas de la editorial Springer.

Acceso

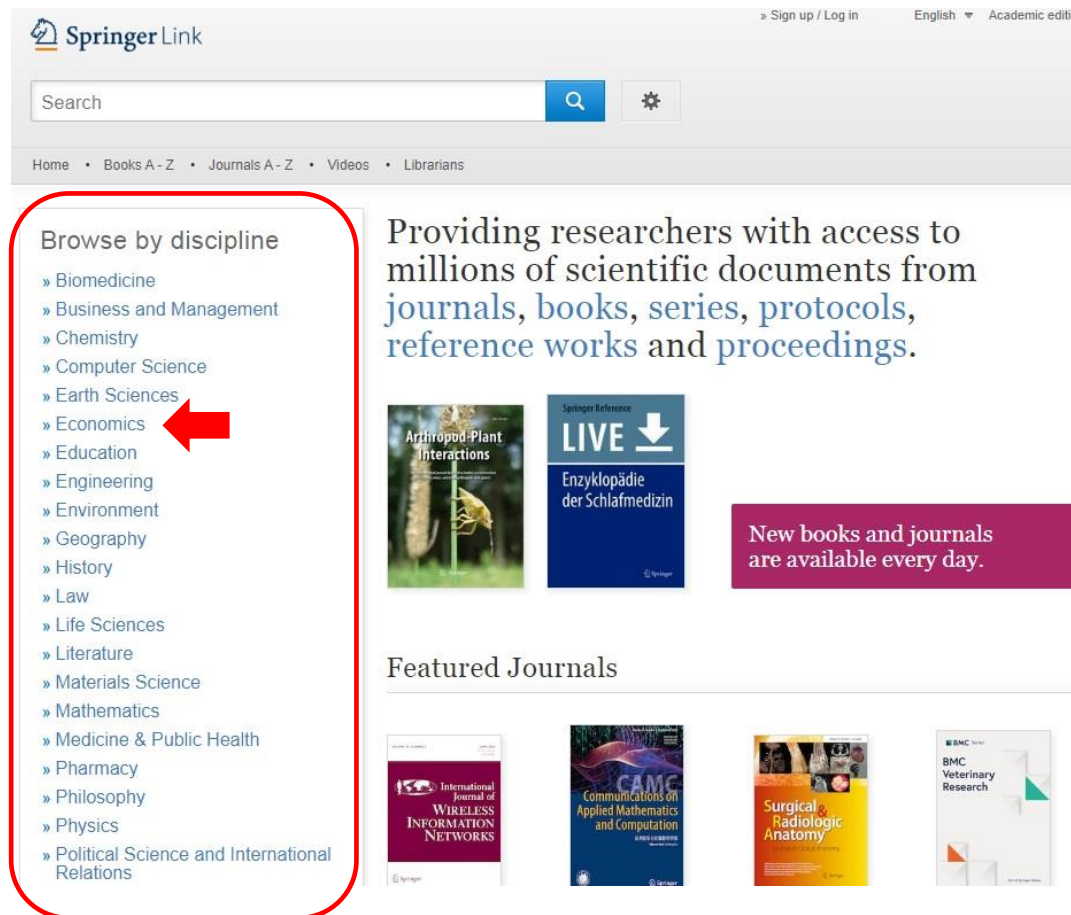

Existen dos formas de acceso a la base de datos SpringerLink:

- 1) Si el usuario se encuentra **conectado a la RIUV**, es decir, trabajando en equipos que pertenecen a la Universidad Veracruzana o bien, en sus propios equipos o dispositivos conectados a la RIUV, deberá acceder a la dirección www.uv.mx. En la parte central de la página aparece en el menú el apartado de **Arte, ciencia, cultura y deporte**, y se ingresa en el vínculo BIBLIOTECAS. Se abrirá una nueva página con varios puntos de acceso dentro de los cuales se encuentra el vínculo a **BIBLIOTECA VIRTUAL** y en el apartado de Multidisciplinarias encontrará el recurso.
- 2) Si el usuario se encuentra **fuera de la red UV**, por ejemplo, en su domicilio, en un cibercafé, es decir, en un lugar externo a la red UV, deberá ingresar **por medio de MiUV** y en el menú de recursos se encontrará con el acceso a **BIBLIOTECA VIRTUAL** (es importante notar que en la parte derecha se encuentra una flecha que permite mostrar un segundo menú de recursos donde se ubica el acceso a la BV). En el apartado de Multidisciplinarias encontrará el acceso a SpringerLink.

Navegación

SpringerLink ofrece una interfaz muy sencilla que le permite navegar al usuario de forma intuitiva dentro de la plataforma.

En la pantalla de inicio, aparece el listado de **disciplinas** por las que se encuentran clasificados los materiales en la base de datos, esto permite tener una idea general del volumen de información que puede haber del área de su interés.

Recuperación del documento

La mayoría de los documentos son descargables en formato PDF.

Búsqueda básica

En la opción de búsqueda básica, que se encuentra en la página de inicio, podemos desarrollar expresiones de búsqueda sencillas por medio de **palabras clave**, sin necesidad de aplicar limitadores para realizar un sondeo general de los documentos disponibles del tema deseado.

The screenshot illustrates the SpringerLink search process. On the left, the 'Browse by discipline' menu lists various fields: Biomedicine, Business and Management, Chemistry, Computer Science, Earth Sciences, Economics, Education, Engineering, Environment, and Geography. The main search bar contains the text 'sustainable buildings'. Below the search bar, a list of disciplines and subdisciplines is shown, with counts for each. A blue arrow points from the search bar to the 'Refine Your Search' section, which includes a 'Content Type' filter (Article, Chapter, Conference Paper, Reference Work Entry, Protocol, Book) and a 'Discipline' filter (Environment, Life Sciences, Medicine & Public Health, Earth Sciences, Social Sciences). A red box highlights the 'Refine Your Search' section, and a blue callout box points to it with the text 'Puede aplicar los filtros de búsqueda'. The search results section shows 57,966 results for 'sustainable buildings'. A red box highlights the 'Sustainable Buildings' link in the results. Another red box highlights the 'Design of sustainable buildings through Value Engineering' article title. A third red box highlights the 'Assessment of green roof performance for sustainable buildings under winter weather conditions' article title. A blue callout box points to the 'Assessment of green roof performance for sustainable buildings' article title with the text 'Puede aplicar los filtros de búsqueda'. A red box highlights the 'Desactivar candado' button in the top right corner of the search results section.
